

SOA Composite Report Generator

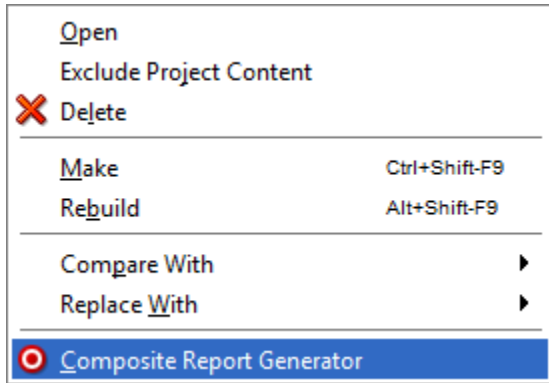

Oracle JDeveloper 11.1.1.7 Extension

Version : 1.0

Author : Arif Khan

About the extension

The SOA Composite Report Generator extension gives a snapshot of the SOA Composite. This extension adds a context menu called “Composite Report Generator”.

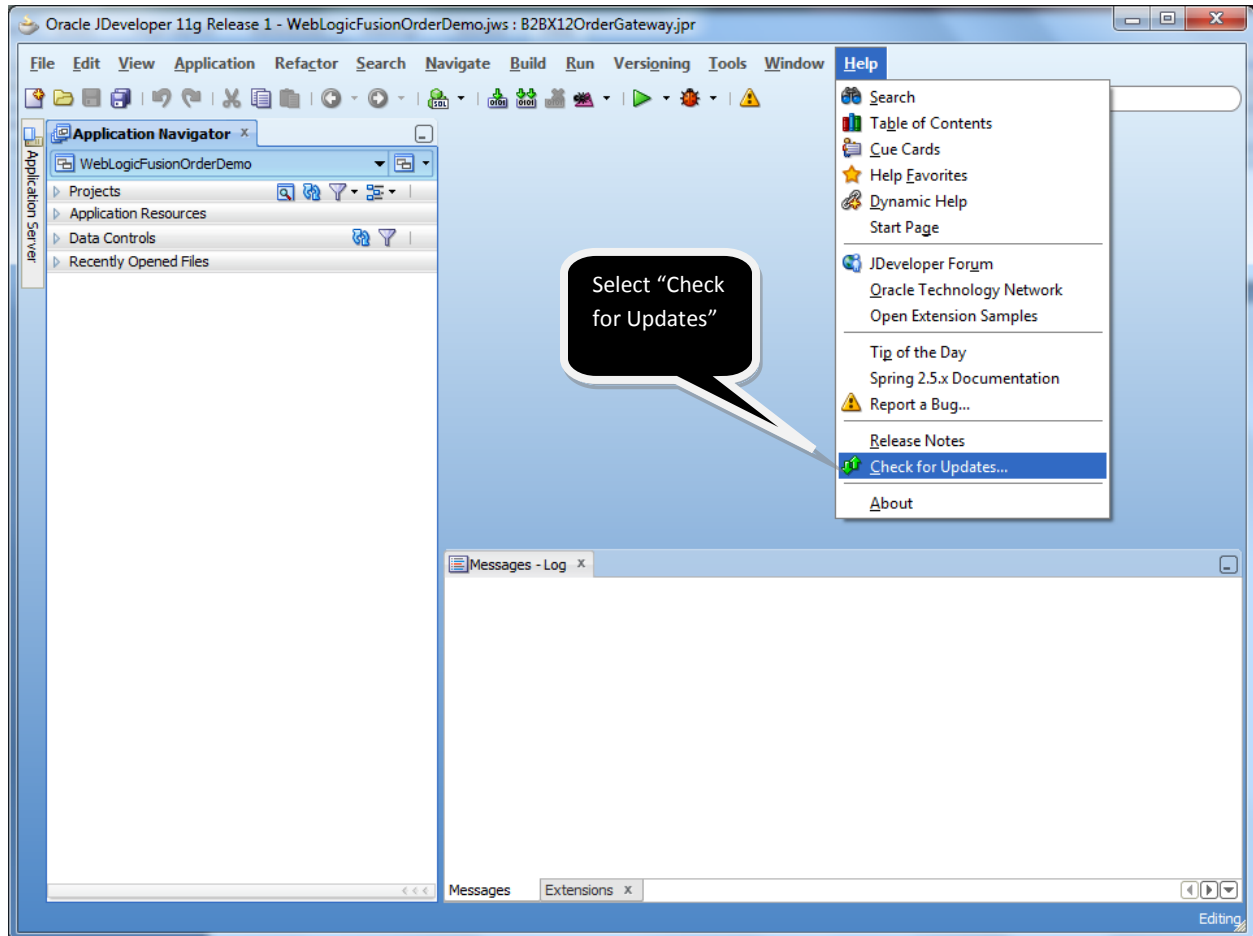

The extension creates a corresponding PDF containing summary of the selected SOA Composite. It provides a structured view of the composite; both diagrammatic and textual representation.

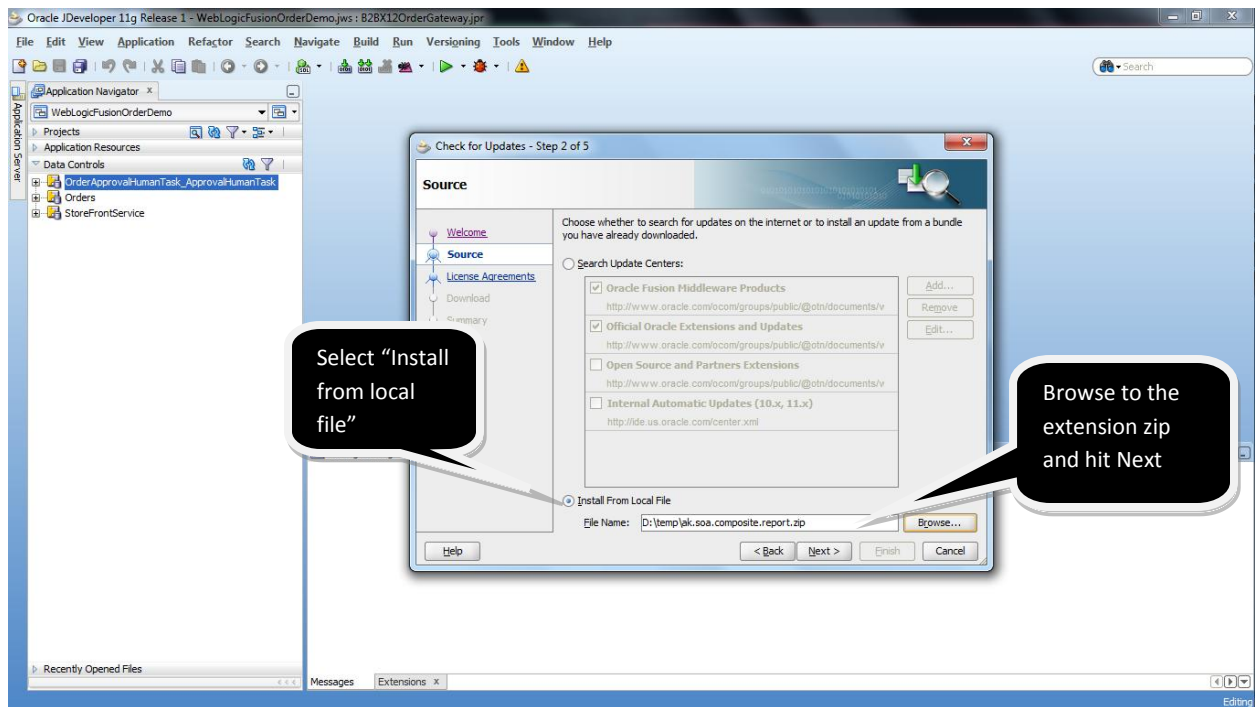

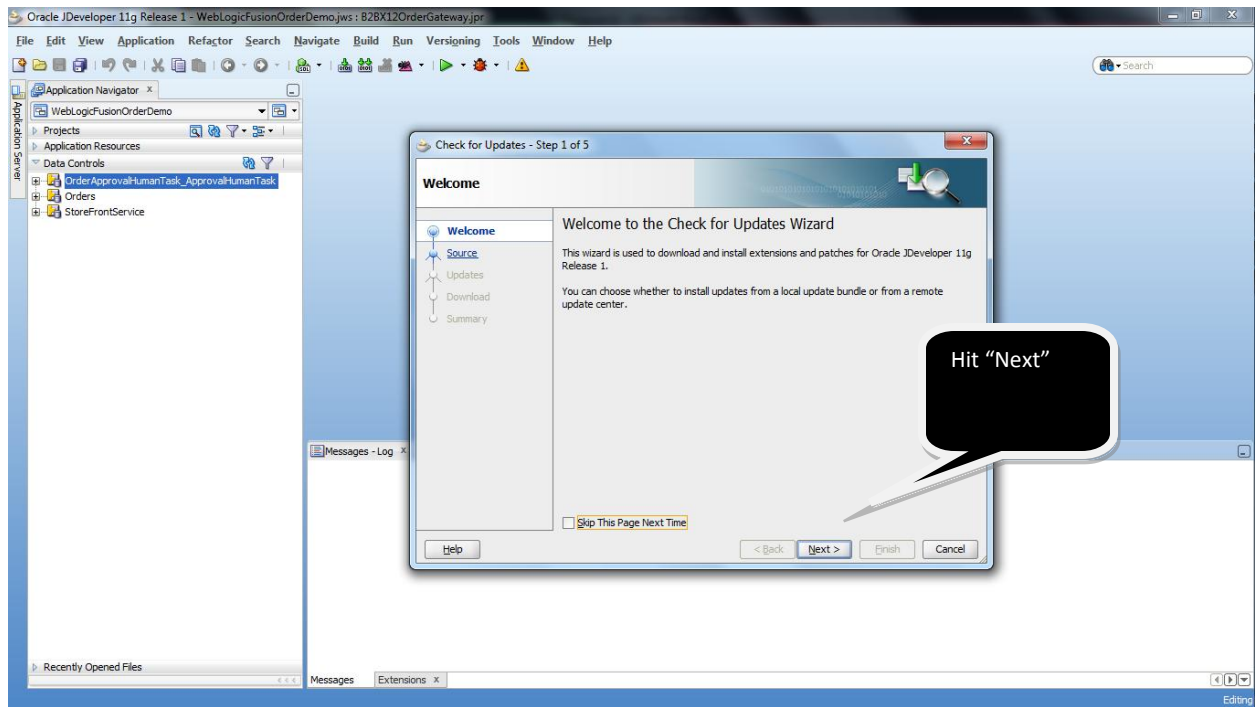

Prerequisites

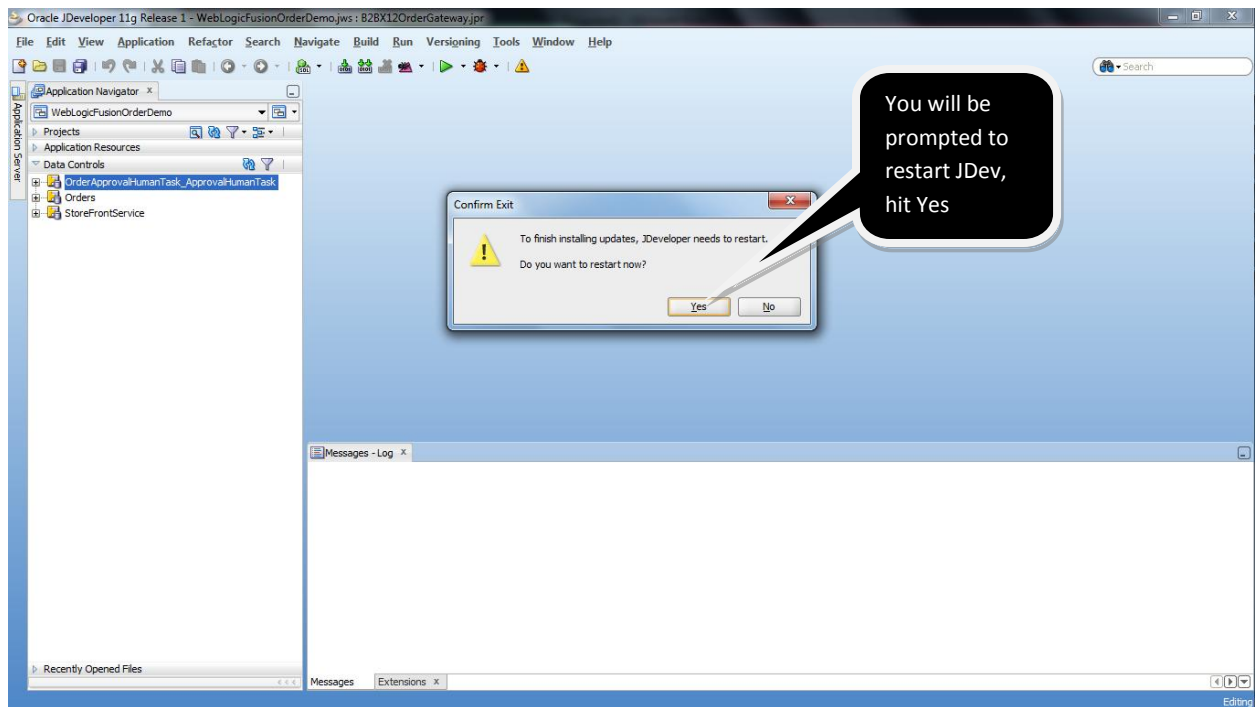

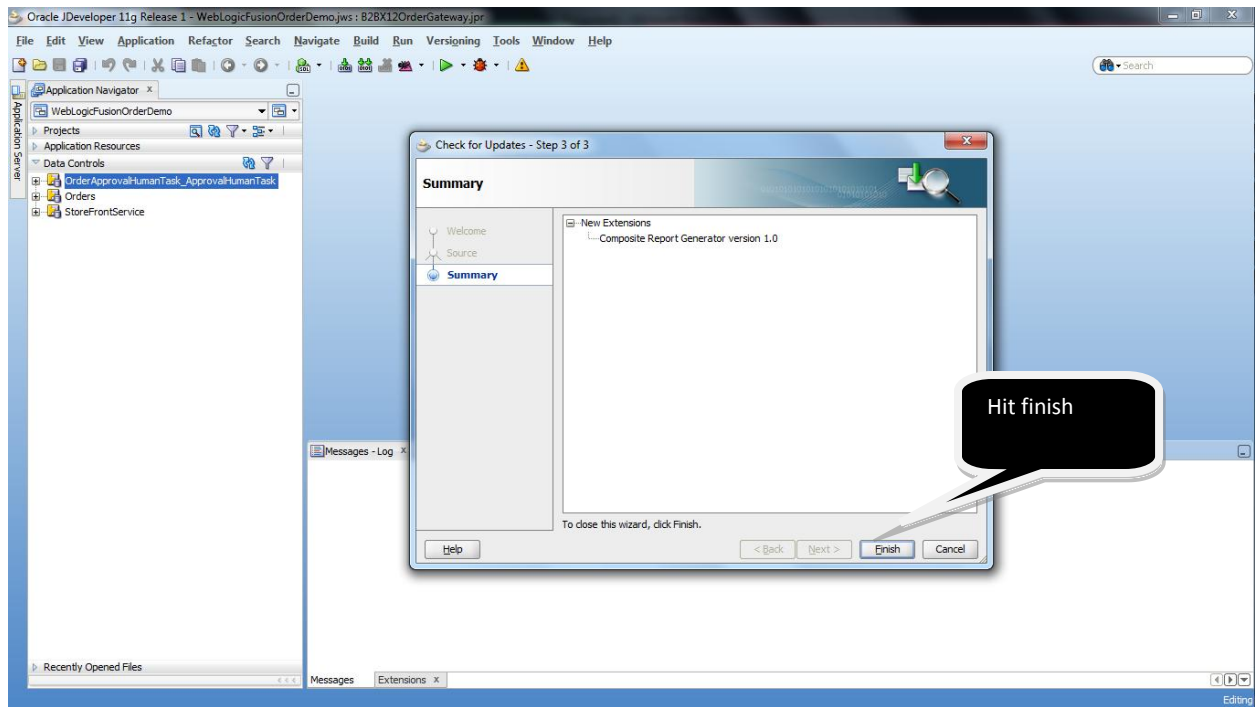

- JDeveloper 11.1.1.7
- JDeveloper extension for SOA
- ak.soa.composite.report.zip

Install

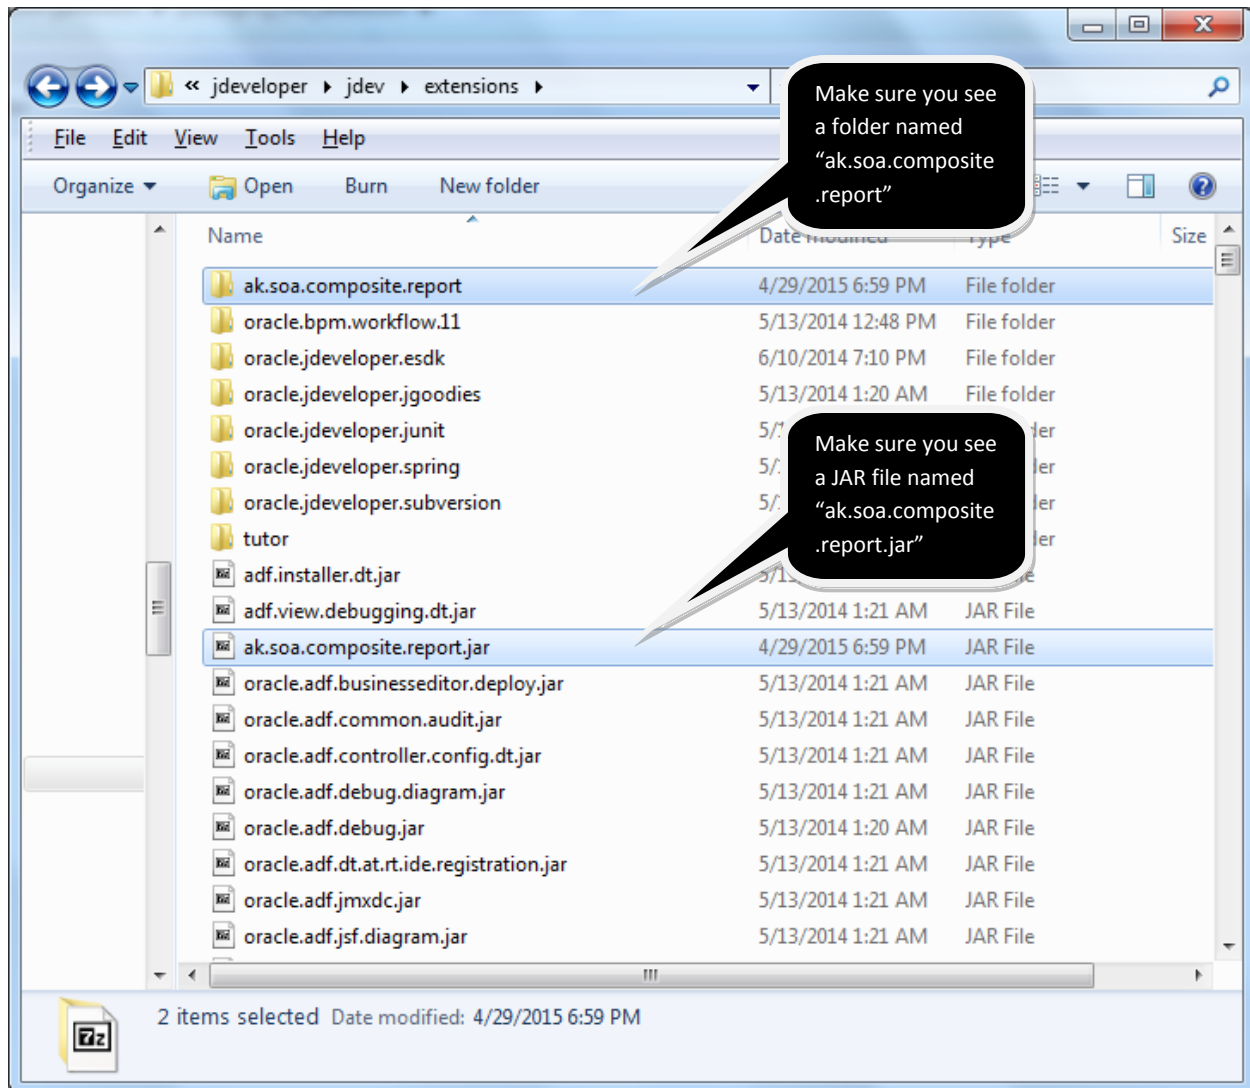

Download the SOA composite generator extension zip “ak.soa.composite.report.zip” and store on local file system

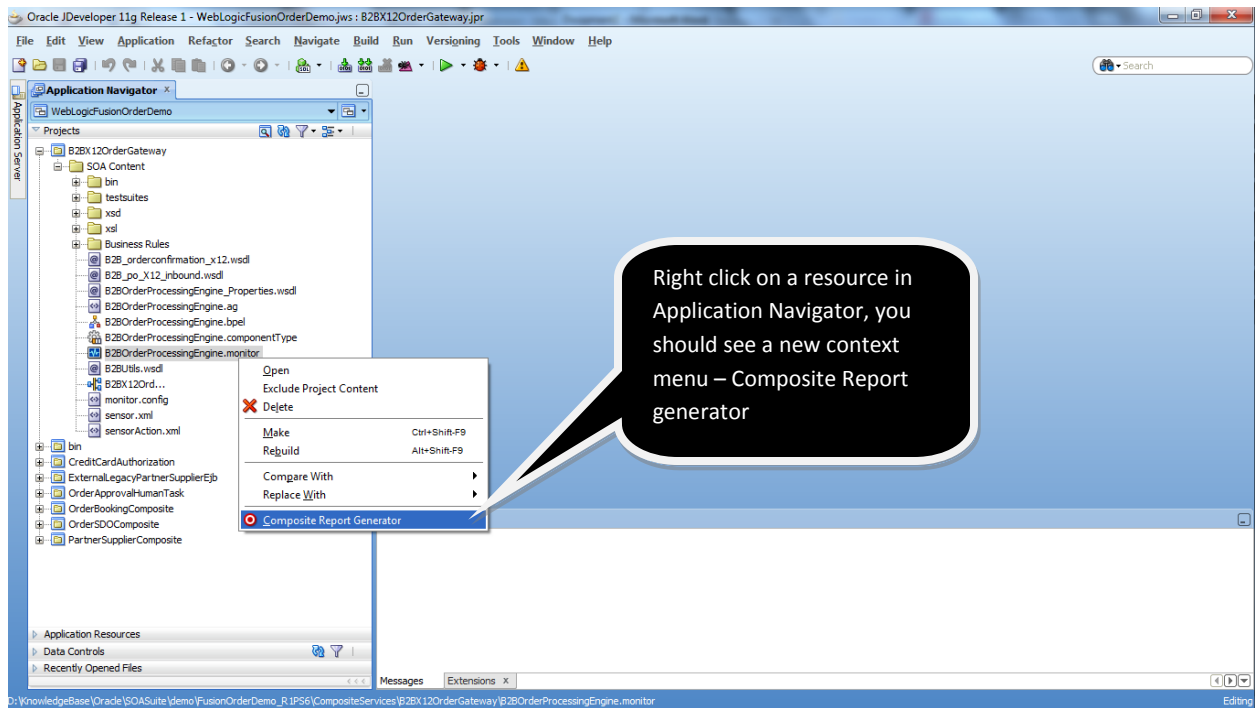

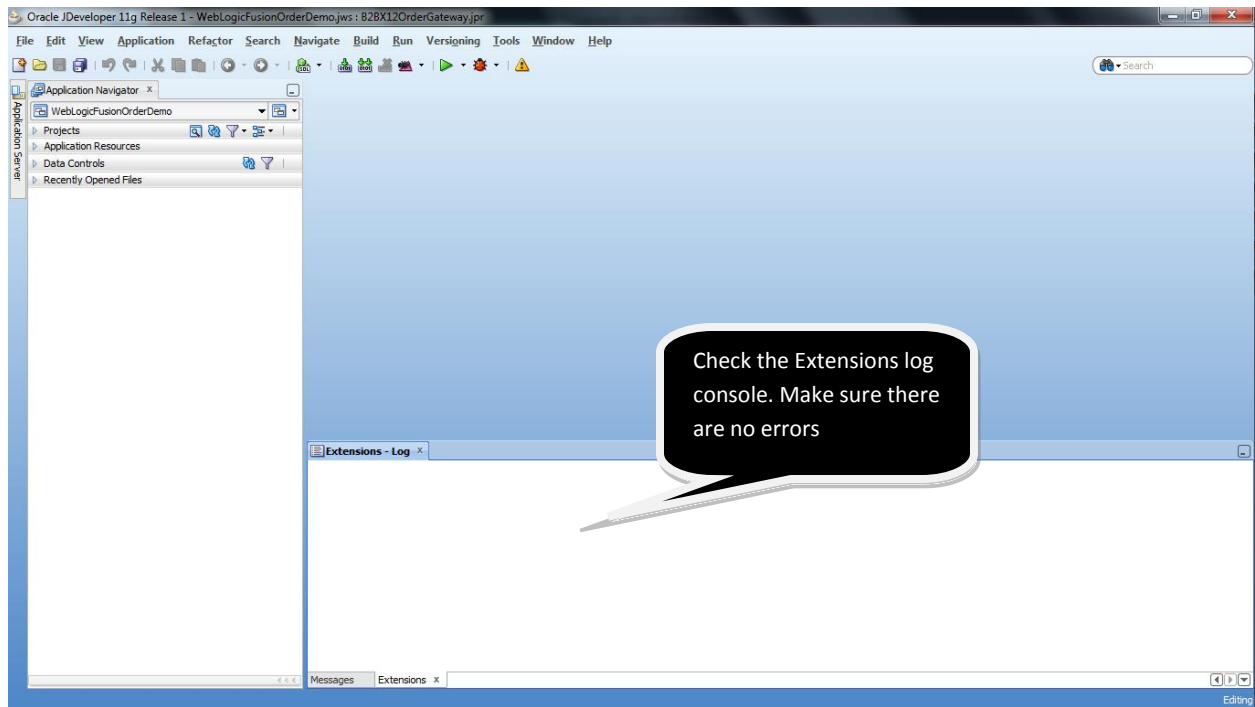

Verify

Run
